WHY SHOULD I USE ALOE VERA

Aloe Vera gel contains 200 chemical compounds and nutrients. These include the following:

- ✓ 20 metal elements
- ✓ 18 amino acids, including 8 important acids that our body does not produce
- ✓ 12 vitamins, including the antioxidant vitamins A, C and E. Also, Aloe Vera is the only plant source of vitamin B12
- ✓ Salicylic acid. A natural exfoliator recommended by dermatologists
- ✓ Beneficial enzymes

The important benefits of Aloe Vera for humans have been proven for thousands of years. Among other things, this wonderful natural ingredient:

- ✓ Cleanses and strengthens the digestive system
- ✓ Gives energy to the body
- ✓ Moisturizes the skin
- ✓ Soothes and promotes skin renewal
- ✓ It strengthens the immune system
- ✓ It provides the body with pure nutrients

The healing and cosmetic properties of aloe were known to the ancient peoples, for more than 3,000 years.

The god Asclepius heals a sleeping patient. Behind him is Hygieia, on the left is the patient's family. Asklepio Piraeus, 4th c. e.g. Archaeological Museum of Piraeus.
